# Who We Are

Pioneer Medical Foundation has a mission to serve the homeless, refugee, uninsured and underinsured adult population with quality free medical care and resources. We work within the Hillsborough and Pasco counties; our goal is to assist patients to close the loop in the continuum of their care by not only providing medical care, but also resources to assist with social determinants of health.

We believe that healing should be holistic and encompass the body, mind, and lifestyle of the patient. By fostering relationships in the community, we are able to offer our patients resources from other organizations. We serve each patient with compassion and ensure they leave our care more informed and equipped to care for their health. We do not discharge our patients, we transition them to another level of care.
